RAISE YOUR

COMFORT LEVEL

WHILE LOWERING EVERYTHING ELSE

Lower your energy bills and maintenance costs while enjoying more precise comfort with the award-winning Rheem Prestige Series™ Two-Stage Air Conditioner equipped with the Comfort Control² System™.

RARL-JEC Series
Efficiencies up to 17 SEER

Reduced Energy Bills
Two-stage cooling design operates on high only at peak times, reducing energy usage and electric bills.

Advanced Comfort
The Comfort Control² System actively keeps your home comfortable and your air conditioner running smoothly through 32 performance-monitoring points when paired with a matching indoor component and thermostat.

Guaranteed Reliability
Quality construction ensures quiet operation, better protection against the elements and long-lasting performance backed by a 10-year limited parts and conditional total unit replacement warranty.
The Comfort Control² System

When paired with a compatible indoor component and thermostat, this advanced technology makes it easy to maximize your family’s comfort and utility cost savings. The Comfort Control² System ensures your Rheem Prestige Series air conditioner runs at top efficiency by actively monitoring your equipment — measuring temperature and relative humidity while providing detailed diagnostics for ease of repair and maintenance, including routine reminders for air filter changes.

Enjoy the Benefits of Smart AC Technology

The Rheem Prestige Series Two-Stage Air Conditioner featuring the Comfort Control² System is designed for maximum efficiency, offering smart technology that helps your family enjoy the highest level of comfort, while lowering energy use and electricity bills.

Energy Savings
Two-stage cooling design operates on low most of the time, providing comfortable temperatures while reducing energy use. The system only operates on high when necessary during peak, warm weather conditions. Your energy savings are further increased by a cooling efficiency rating of up to 17 SEER.

Greater Comfort
When matched with a Rheem variable speed furnace or air handler, the system adjusts airflow to help control humidity 102% more effectively than standard efficiency units, for unsurpassed comfort in the cooling mode.

Curb Appeal
Low-profile design blends in with the exterior of your home and is less likely to obstruct views from exterior windows.

Quiet Performance
A compressor sound blanket encompasses the unit’s compressor, greatly reducing operating noise.

Enjoy Long-Lasting Quality and Comfort

We understand that purchasing heating and cooling equipment is an investment. With Rheem, it’s one you can expect to continually perform and deliver value for your family long-term. We’ve designed the Rheem Prestige Series to provide comfort you can count on.

Protective Design
Full metal cabinet protects the coil from hail, lawn debris and keeps curious children safe.

Superior Finish
Powder-painted metal cabinet finish exceeds the industry 1,000 hour salt-spray testing requirement, guarding against the elements and rust, keeping your investment visually pleasing.

Rheem Quality
Complete factory run testing ensures your Rheem equipment operates at peak performance before being installed in your home.
