The Rheem Value Series 80% Upflow/Horizontal Furnace is a value-alternative which enjoys the benefits of high-efficiency at lower cost.

- **Direct Spark Ignition and Remote Sensor**
  The direct spark ignition is an efficient method of gas ignition while the remote sensor monitors the flame.

- **Furnace Control**
  This solid state integrated furnace control is the “brain” of this dependable furnace-controlling the blower and inducer motors for heating capacity and efficiency.

- **Patented Heat Exchanger**
  Extremely compact the heat exchanger provides a faster, more efficient transfer of heat. The aluminized and stainless steel construction is so reliable its backed with a 20-year limited warranty.

- **Induced Draft Blower**
  It works specifically with the heat exchanger. The blower pulls hot combustion gases through the exchanger and vents them outdoors.

- **In-Shot Burners**
  Regulates the air/gas mixture.

- **Blower Motor**
  An easy slide out blower motor for easy access. The blower quietly circulates air around the heat exchanger, where its heated to comfortably warm your home.

**Limited Warranty Information**
Conditional Parts Warranty (Registration Required) - 10 Years
Limited Heat Exchanger Warranty - 20 Years

---

**Upflow/Horizontal Models**
Accommodate most installation Requirements

**Heating Capacities from 50,000 to 150,000 BTU/Hr**
