GKS9  HIGH-EFFICIENCY, MULTI-SPEED GAS FURNACE

UP TO 92.1% AFUE PERFORMANCE

Thank goodness for Goodman®
FOR RELIABLE WARMTH AND MONEY-SAVING ENERGY EFFICIENCY.

As a homeowner, you try to find a balance between your family’s comfort and your monthly energy costs. To meet those needs, we’ve developed the Goodman® brand GKS9 Energy-Efficient Multi-Speed Gas Furnace. What should you expect from your Goodman brand GKS9 Energy-Efficient Multi-Speed Gas Furnace? How about a superior combination of performance, efficiency and affordability? That’s just what you’ll get with Goodman. Whether it’s the coldest day of the year or any day of the year, with the Goodman brand GKS9 Gas Furnace you’ll be saying, “Thank goodness for Goodman.”

ENJOY THE COMFORT AND EFFICIENCY

Energy efficiency is key to controlling the cost of heating your home. This furnace’s 92.1% AFUE rating means 92 cents of every $1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of every $1.00 of heating energy expense warms your home. The remaining 40 cents is lost energy – wasteful and expensive.

RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to industry standards.

For further safety and reliability, we also include a quiet, efficient hot surface igniter that helps ensure safe start-ups and maximum igniter life.

QUIET YOU CAN COUNT ON

Your Goodman brand GKS9 Furnace uses a multi-speed blower motor and sound-isolated blower assembly to reduce the noise levels common in other furnaces without these features. Add an insulated, heavy-gauge steel cabinet, and the result is... quiet comfort.

Unmatched combination of performance, efficiency and affordability. That’s just what you’ll get with Goodman.

THE HEART OF COMFORT

The award-winning design of the primary heat exchanger in the Goodman brand GKS9 Gas Furnace is unique. It’s constructed from tubular aluminized-steel and formed into a dual-diameter configuration. Furthermore, the use of wrinkle-bend technology results in an extremely durable heat exchanger. A heat exchanger often is considered the essential component of any gas furnace. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. This combination offers one of the best levels of reliability, durability, and efficiency you’ll find within the Goodman brand.
IMPRESSIONIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GKS9
MULTI-SPEED HIGH-EFFICIENCY GAS FURNACE

- Aluminized-Steel Dual-Diameter Tubular Heat Exchanger
- Energy-Saving, Quiet Four-Speed Circular Blower Motor
- Durable, Hot Surface Mini-Igniter
- Quiet, Single-Speed Induced Draft Blower
- Electronic Ignition Control Board with Self-Diagnostics
- Corrosion-Resistant, Painted Steel Cabinet
